

2005 Nissan 350z , I am the second NZ owner, the car was imported to order as an un-touched, unmodified example. It's a 'base' model, but with 2 factory options, 18" factory wheels and Xeon headlights. Its also now got a 17lbs lightened flywheel and a heavy duty clutch, and a LSD differential from a higher spec model.

Clean panels, nose respray, all over in excellent condition paint. Fully original

6 speed manual, carpet wear fair, mats always used

Clean and complete.

Engine clean and oil leak free, done 138K in Feb 2019. Looks genuine. New fans, recently fitted.
